Your Petitioner, NETDEPOSIT, INC., hereby disclaims, subject to the limitations to follow, the terminal part of the term of any patent granted on U.S. Patent Application 09/676,956 which would extend beyond the full statutory term, as shortened by any terminal disclaimer, of any patent granted on U.S. Patent Application 09/560,779, and hereby agrees that any patent so granted on U.S. Patent Application 09/676,956 shall be enforceable only for and during such period that the legal title to any patent granted on U.S. Patent Application 09/560,779 shall be the same as the legal title to any patent granted on U.S. Patent Application 09/676,956, this agreement to run with any patent granted on U.S. Patent Application 09/676,956 and to be binding upon the grantee, its successors or assigns.

Further, Petitioner does not disclaim any terminal part of a patent granted on U.S. Patent Application 09/676,956 that would extend beyond the present termination of any patent granted on U.S. Patent Application 09/560,779, in the event that such present term is extended by virtue of compliance with the conditions for term extension of any present or future patent term extension provisions of the patent law, including but not limited to 35 U.S.C. §§155, 155A or 156, and without waiving Petitioner's right to extend the term of a patent granted on U.S. Patent Application 09/676,956 to the extent provided by law. Additionally, this terminal disclaimer shall be effective only if a patent is granted on the 09/676,956 patent application within twelve months from the date hereof.

This Assignment of Intellectual Property (this "Agreement") is made and entered into by and between Zions Bancorporation, a Utah corporation ("Assignor"), and NetDeposit, Inc., a Nevada corporation ("Assignee").

RECITALS

A. Assignor is the owner of certain patents, trademarks and copyrights, and other intellectual property and intellectual property rights (the "Intellectual Property") described on the attached Schedule A which is incorporated herein by reference.

B. Assignor has agreed to assign to Assignee the Intellectual Property and all of Assignor's rights in and to the Intellectual Property in exchange and as consideration for shares of capital stock of Assignee.

AGREEMENT

In exchange for good and valuable consideration, the sufficiency and receipt of which is hereby acknowledged, Assignor and Assignee agree as follows:

1. Assignment. Assignor hereby irrevocably assigns, transfers, sells, conveys, and sets over to Assignee, exclusively, in all countries, jurisdictions, and throughout the world, all right, title and interest of Assignor in and to the Intellectual Property, including without limitation, any and all pending patent, trademark and copyright applications and registrations for and of the Intellectual Property, and any renewals and extensions thereof, now in the United States or any other country or countries, including all U.S. Letters Patent granted or which may be granted therefor, and all divisions, reissues, continuations, continuations in part, and extensions thereof, and all actions and causes of action related to the foregoing and all damages, profits, penalties and other recoveries related thereto, together with the goodwill of the business symbolized by the Intellectual Property, this assignment, when granted, being the entire ownership of the Intellectual Property and all rights associated therewith.

2. Representations and Warranties of Assignor. Assignor represents and warrants as follows:

- a. The Intellectual Property is owned solely and exclusively by Assignor.
- b. The Intellectual Property is not subject to any prior assignment, security interest, lien, license, or other encumbrance of any nature whatsoever.
- c. To the best of Assignor's knowledge, and except as disclosed on the attached Exhibit B, which is incorporated into this Agreement by this reference, the Intellectual

Property does not infringe upon or interfere with any other trademark, copyright, patent or other intellectual property rights of any third party.

d. The Intellectual Property, together with the trademarks listed in Section 6 of this Agreement, constitute all of the patents, trademarks, copyrights and other intellectual property and intellectual property rights owned by Assignor with respect to the business engaged in, or intended to be engaged in, by NetDeposit, Inc. as of the date of this Agreement.

e. There are no actions, suits, or proceedings pending or, to Assignor's knowledge, threatened against or affecting the Intellectual Property, except as disclosed in the attached Exhibit B.

3. Covenants of Assignor. Assignor agrees not to challenge Assignee's rights in and to the Intellectual Property or to take any action whatsoever with respect to the Intellectual Property except as specifically requested or consented to by Assignee. Assignor further covenants that Assignor will not create any trademark or service mark in the future which may create a likelihood of confusion with any of the trademarks comprising the Intellectual Property.

4. Cooperation. Assignor agrees to cooperate with Assignee in all matters regarding the Intellectual Property such that Assignee may enjoy to the fullest extent the rights conveyed under this Agreement, including prompt execution of all documents and other papers deemed necessary or desirable by Assignee to secure for Assignee, its successors and assigns, the assignment of the Intellectual Property and all rights pertaining thereto. The Commissioner of Patents and Trademarks, the Library of Congress, Copyright Office, and all applicable state and foreign agencies and representatives are requested to permit the recordation of this Agreement and to make corresponding changes to their respective registries to identify Assignee as owner of the Intellectual Property, pending applications, registrations, letters of patent, and other documents as applicable.

5. Assignment as to Foreign Countries. Assignor hereby authorizes Assignee to apply for patents, and trademark and copyright registrations for the Intellectual Property in Assignee's own name in countries where such procedure is proper. Assignor further agrees to execute, and use its best efforts to cause all individual inventors to execute, applications for the Intellectual Property in the countries where it is necessary that they be executed by the inventor, and to execute assignments of such applications and the patents to be obtained for the Intellectual Property to the Assignee, as well as other necessary papers and documents.

At such time as Assignor files with the USPTO an amendment to allege use or statement of use of any of the marks, or final refusal to register such marks is issued by the USPTO, Assignor agrees to assign

to Assignee application serial nos. 76/073,494, 78/020,612, and 76/457,518 by written amendment to this Agreement, and to amend Schedule A to reflect the assignment. Assignor agrees to timely file statements of use, or extensions of time to file such statements of use, and to otherwise to make all reasonable efforts to obtain federal registration of the marks NET DEPOSIT, NET DEPOSIT (WITH DESIGN) and NETSETTLEMENT, except that Assignor shall seek and obtain the approval of Assignee prior to taking any action with respect to registration of the marks. If, despite Assignor's reasonable efforts, the USPTO issues a final refusal to register any of the foregoing intent-to-use applications, or such applications are abandoned or cancelled, Assignor agrees to assign to Assignee the trademark associated with the application subject to the terms and conditions of this Agreement, and Schedule A shall be amended accordingly.

7. Right to Sue for Past Infringement. Assignee shall have the right to sue for infringement of the Intellectual Property for any claims arising or accruing prior to the date of the execution of this Agreement, and to collect all damages and profits for all such claims and causes of action.

8. Indemnification. Assignor agrees to indemnify and hold Assignee harmless from and against any and all losses, claims, demands, damages, and other costs of any nature or kind whatsoever, including, without limitation, all attorney fees, costs, and expenses, arising directly or indirectly out of or in connection with the breach of any representation, warranty, covenant, or agreement made by Assignor in this Agreement.
